

## Job description

### **Software development (fulltime) – San Francisco/Bay Area**

As a pioneer in the area of augmented reality technology, metaio develops software products for systems driven by visual interaction in both, the real and the virtual world. Our Unifeye software platform not only lets you place 3D animations directly into live video streams, but also supports the seamless integration of images from the external user environment.

Founded in February 2003, we currently employ 45 members of staff at three different locations. The company is headquartered in Munich, Germany. Our subsidiaries metaio Inc. and metaio Asia are headquartered in San Francisco and Seoul, respectively. metaio is currently involved in projects worldwide for over 140 well-known customers from a broad range of industries. Among them are: BMW, Focus Features, LEGO, Toyota, Peugeot, EADS, Popular Science, KUKA and Volkswagen.

For our San Francisco office we are looking for an employee, in the area of software development.

Your tasks include the analysis, the design and the transfer of customer specified Augmented Reality solutions.

#### **Task profile:**

- Application development on iPhone / MacOSX
- Working on customer projects
- Requirements analysis / engineering
- Application design
- Project communication
- Collaboration with the core development, research and product development
- Customer and service orientation

**Qualifications:**

- Degree in Computer science or equivalent technical degree
- Experience with iPhone SDK / XCode
- Preferably one year of work experience or more
- Very good programming skills, mainly in Obj-C / C++/ C#
- Experience in object oriented software engineering (UML, Design patterns, etc)
- Knowledge in the area of computer vision and computer graphics
- Experiences in the implementation of software projects
- Very good English language skills
- Analytic and strategic abilities
- High motivation and personal engagement
- High flexibility and team spirit

If you are interested to join us in an exciting field of the high-tech sector, in a dynamically growing team and want great job perspectives, we are looking forward to your application!
